(54) HOLE TRANSPORTING COMPOUND AND ORGANIC THIN FILM LIGHT- EMITTING ELEMENT

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a heat resistant hole transporting compound and a heat resistant organic thin film light-emitting element.

SOLUTION: A heat resistant hole transporting compound that has a tetrahydropyrene structure as expressed in the structure of the formula [1] is used for the organic thin film light-emitting element.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
